NMC App – 24/7 Access to your Monitoring Accounts

We are very excited to let you know about a new customer application that is available for any of you who have fire alarm accounts that are monitored through our central station at National Monitoring Center. This new app will allow you to view your account history, place systems on full or partial test, and view your list of emergency contacts and make minimal changes.

NMC monitors all accounts that begin with the following prefixes: **AFA, LGB, LGZ, and A16**. If you're not sure of your account number, you can locate it on the first page of your annual fire alarm inspection report or by contacting Blake Garvelli, our Monitoring Coordinator, at bgarvelli@actionfirepros.com. She'll be happy to help you.
