Pat Breen

Waco Sales Coordinator

Pat has been with Action since 2009 and is the Sales Coordinator for the South Central Region that includes the Waco, Temple and Austin areas. She enjoys dancing, hanging out with her family and friends and is the pack leader for 7 pups. Her heart is in dog rescue and in her spare time works with several rescue groups helping to save as many animals as possible.

The reward is seeing these animals transform from scared and alone to lively, happy and in a forever home.

Do You Know What's in Your Pipes?

If you are thinking “YUCK!” just imagine how your fire sprinkler system feels. This is why the National Fire Protection Association, as well as Action Fire Pros, recommends that you stay on schedule for your 5-Year Fire Sprinkler Internal Inspection to look for signs of obstruction and/or corrosion within your system.
